

## HANDCRAFTED CARPETS

Bizrak Impex exports handwoven carpets that reflect India's artistic legacy and craftsmanship. Our carpets are meticulously crafted by skilled artisans using natural fibers such as wool, silk, and cotton.

Each piece embodies tradition blended with modern design — from intricate Persian-inspired motifs to contemporary patterns. We work closely with artisan clusters in northern India to ensure that every carpet is ethically produced and of the highest quality.

Our carpets are available in various sizes, colors, and textures — suitable for luxury homes, hotels, and corporate spaces. With precision weaving and eco-friendly dyes, every carpet tells a story of art, culture, and timeless elegance.
