

MANGO

The mango — the king of fruits — is India's most celebrated export. At Bizrak Impex, we take immense pride in supplying premium mango varieties such as Alphonso, Kesar, Banganapalli, Totapuri, and Dasher. Each variety is sourced from selected orchards where trees are nurtured through sustainable horticultural practices.

Our mangoes are naturally ripened, carefully graded for size and sweetness, and handled using vapor heat treatment and cold chain logistics to meet international phytosanitary standards. The result — mangoes that retain their tropical aroma, vibrant color, and naturally rich taste.

From fresh consumption to pulp processing and beverage industries, Bizrak Impex mangoes are preferred globally for their authentic Indian flavor and freshness — a true tropical delight in every bite.
